Technologies: CSS, HTML, React.js, Express, MongoDB, MySQL, AWS

PROJECTS

Talkie Box | **https://github.com/wcastellan/talkie-box** | **https://protected-forest-66303.herokuapp.com**
- Share and discuss with your friends what series and movies you are watching. With the increasingly digital world with are living in, it can become hard to discuss your favorite media content with people around you so we built a website designed specifically to encourage this type of discussions.
- Responsible for the functionality of the front end with React and JS, and part of the backend infrastructure with MongoDB and GraphQL.
- React, Express, GraphQL, MongoDB, JS, CSS.

Carbnb | **https://github.com/jpmarinh92/carbnb** | **https://guarded-reaches-67644.herokuapp.com**
- Rent a car from another person directly or rent your car to another person. For the people that have a car that rarely use and would like to make some passive money, rent your car when you want and at any price you want.
- In charge of the backend with Express and MySQL and the functionality of the front end through HTML, CSS, JS and Handlebars and the upload of images to AWS S3.
- HTML, CSS, JS, Handlebars, Express, MySQL, AWS

LyricLover | **https://github.com/Osamadahnoun/LyricLover** | **https://osamadahnoun.github.io/LyricLover**
- Find the lyrics of your favorite and top trending songs
- In charge of working with the API for the lyrics as well as for the display of the lyrics
- HTML, CSS, JS, TheAudioDB API, Vagalume API
